Review of license agreements:

Triangle Rescue - Still needed (Verbal Elron - McGee)
First Copy of agreement not received.
Second copy has been sent.

SNP - Letter of agreement sent by SNP was given to me at the February Board meeting. I have not been able to locate it since I have moved. Unless the Board wishes to take other action, I will contact SNP to get another copy.

VA EMS - No Action at this time.

ASTM William Dixon

F32 is the committee that is dealing with SAR. There are seven subcommittees which make up this committee.

William is in the Legal subcommittee.

The ICS standard is being brought up from subcommittee to committee and will be voted on as the first standard to come out of F32.

William suggests appointing six other ASRC members, one to each of the remaining uncovered subcommittees.

PASARC Peter McCabe

The PASARC now has Western, Central and Eastern divisions which have their own meeting schedules. There is one Statewide meeting per year.

The next meeting will be 29JUN and will cover commo topic (licenses) and possible incorporation.

MD SAR Gary Mechtel
Gary has met with the MD State Police. The MSP has no money for training, but would like to participate in an ASRC simulation.

VASARC Bob Koester
VADES presented their quarterly reports including volunteer hours and miles driven.

A team presented a video on scent dog training.

PAWEMT Keith Conover
The next WEMT class will be in November.

There will be a textbook available this summer.

OLD BUSINESS

Search Reviews

AMRG feels that ASRC should not do Urban SAR.

Prince Georges County , MD search of 01APR:
ASRC should not stage at the scene.
Mechtel commends George Swett for a job well done during the 01APR search.

Peter McCabe says that the United States Park Police may be willing to rendezvous with people and transport them to missions.

Prince William Forest Park:
Swett agreed to IC and to stage nearby.
Staging away from the scene is good.

Augusta County:
Staging was done away from scene and worked.
Dixon and Marsh took over from Bridgewater TRT although they expected only to support BRTRT when arriving on scene.
BRTRT had used ICS to run search.
Some of the ASRC IS had criticized BRTRT for the way things were being run, and BRTRT left, wanting to take all of their supplies with them.
A concern was raised as to the appropriate procedures concerning the turnover from another group to the ASRC and vice-versa.
It would be a good idea to contact BRTRT and coordinate transitions.
Recommended that an Augusta County debrief be held at the next ASRC BOD meeting @ 1500, along with other missions.

Manassas:

During a meeting with the USPS to discuss another matter, the subject of the Manassas search was brought up. There were many negative comments from the Park Service concerning the use or misuse of the Prince William County Park as Division HQ during that event. The personnel at PWFPP felt that the ASRC had come in and taken over the Park HQ. The learning point is that the ASRC should be more sensitive to the feelings and observations of the "customer" in regards to using their facilities.

Lunch @ 1237, return @ 1350.

The Board discussed a number of Conference objectives and agreed on the following list. The list within priorities is alphabetic and not to be construed as a priority list with in priorities.

Prince William County Search Incident

Points brought up at the meeting: Dave Carter wrote a letter to Terrence Spellane (attached) concerning the Dennis Soper mission in Prince William County, VA. The Park Service FAXed the documents in question to Gary Mechtel. Mechtel spoke with Ralph Wilfong, Mark Pennington and Dave Carter concerning the documents. Carter stated to Mechtel that the threat in the letter to distribute the letter to the press was an empty one. Carter stated to Mechtel that he will continue to write letters like this, that the ASRC can censure him, he doesn't care. Carter claimed that four people from TSARG reviewed the letter. Carter told Koester that he was going to write a letter. Koester was not aware of the content of the letter.

Mechtel will address the question of IC transfers when the OPS manual is rewritten.
